

BOOGIE-U

In today's rapidly changing world, entrepreneurship and innovation (E&I) competences have become increasingly important for success. To prepare learners with these skills and competencies, there is a need to choose the effective teaching and assessment tools and practices.

Kaunas University of Technology is inviting you to BOOGIE-U E&I teaching and learning assessment online workshops. Learn from Kaunas University of Technology, Trento University and [European Institute of Innovation & Technology](#) – the leading Europe's ability to innovate force – practices.

Register and save the spot: <https://bit.ly/BOOGIE-U-LA-workshop-registration>

Registered participants will receive all further information by email.

Workshop #1 "Innovation and entrepreneurship competences teaching practices and assessment tools"

When: 31st of March 2023, 13:00 (CET)

Targeting: academic or non-academic university staff, teachers, who are interested in E&I and would like to get to know new teaching and assessment methods, teachers operating in different study fields and interested in integrating E&I into the study process, entrepreneurship promotion experts working in formal education field

This workshop addresses the need to explore best practices and tools for teaching and assessing E&I skills and competencies. By sharing innovative teaching approaches as a challenge-based learning (CBL) and experiences on effective assessment tools and challenges, participants will gain insights about innovative teaching and assessment practices that can help enhance students' E&I competence development.

Workshop experts:

Dr. Asta Daunorienė, head of the Kaunas University of Technology EDU_Lab teaching and learning center, expert in CBL, and flexible learning pathways, certified SCRUM master and LEGO SERIOUS PLAY coach

Dr. Jurgita Barynienė – certified Design Thinking expert, SCRUM master, consultant and change initiator at Kaunas University of Technology
